

[Aptech Gauss 10 17](#)

The screenshot shows the Bitdefender Removal Tool interface. On the left is the logo featuring a trash can with a recycling symbol and a green alien-like character. To the right of the logo, the text "Bitdefender Removal Tool" is displayed. Further right, a message states "This tool removes only the virus: Trojan.Spy.Gauss.Gen" above a green "START SCAN" button. Below this is a blue progress bar that is nearly full. The status "Status: Scan Completed" is shown. A table with three columns: "File", "Detection", and "Status" is present but empty. At the bottom, the "Donotcrack.com" watermark is visible.
